

Licorice Root (Item #3015)

Liver Protection, Heart Health, and Inflammation Tamer

Licorice Root has a long history of use by cultures throughout the world, including the Greeks, Egyptians, Chinese and Hindus. It grows wild in southern and central Europe and is extensively cultivated in Russia, Spain, Persia and India. Licorice was so valued in ancient Egypt that even King Tutankhamen was buried with a supply. Licorice is widely used as a flavoring, not only for candy (although most modern licorice candies are flavored with anise) but also in cough drops, syrups, tonics and laxatives.

Dosage: Take 1 vegi-capsule, 3 times daily or as directed by a qualified health professional

Ingredients Explained

Licorice Root – Has many active constituents that aid the body in numerous ways. Glycyrrhizin acts as an anti-inflammatory to inhibit the breakdown of cortisol and also has antiviral properties. Flavanoids help heal the digestive tract and provide antioxidant protection. Triterpenoids inhibit cancerous growths and help prevent tooth decay. It also stimulates production of two steroids, cortisone and aldosterone, to help reduce inflammation.

Some of the possible benefits from taking Licorice Root include:

- Protects the liver
 - Prevents and retards cancerous growths
 - Aids with digestive and urinary ailments
 - Prevents heart disease by minimizing damage from cholesterol (LDL)
 - Reduces pain and stiffness from arthritis
 - Helps with menstrual and menopause problems
 - Promotes good hormonal, sexual and reproductive health
 - Exerts a mild diuretic effect
 - Helps with chronic fatigue syndrome, fibromyalgia, canker sores, eczema, herpes and peptic ulcers
 - Good for respiratory problems like bronchitis, colds and sore throats
 - Prevents cavities
-
