A Healthy and Effective Hypo-Thyroid Support Program

Products Included in This Protocol Are:

- ① Kelp and Dulse (4003)– Natural Thyroid Function and Nutrition
- ① Brilliance (4017) – Brain Oxygenation Herbal Formula
- ① Vitamin E (5071) – One of Nature’s Most Powerful Antioxidants
- ① Micronized Mag/Cal in 7:5 Ratio (2008) - A Natural Way to Balance the Thyroid

Protocol Overview

Hypothyroidism is a deficiency in Thyroid Hormones. These hormones are what keep the body’s metabolism going. Symptoms of Hypothyroidism may include: fatigue, weakness, weight gain, depression, memory loss and dry pale skin. The most common cause of Hypothyroidism is autoimmune thyroiditis, caused by the person’s own immune system. Therefore, one of the most effective ways of treating Hypothyroidism is to boost the immune system and increase glandular function of the Thyroid.

This Wellness Protocol brings together the traditional herbs, vitamins and minerals of our individual formulations to reduce the symptoms of Hypothyroidism.

Kelp and Dulse a great natural source of Iodine and other trace minerals, this formula can help insure healthy glandular function and nutrition.

Brilliance is a combination of several herbs, including Gotu Kola and Ginkgo Biloba. Gotu Kola is a mild relaxant and provides mental clarity. Ginkgo Biloba stimulates the blood flow to the brain and promotes healthy memory function.

Vitamin E is a potent antioxidant that helps protect cells from “free radical” damage. This unique, all natural blend is one of the most complete and natural forms of Vitamin E available. Antioxidants help to boost the immune system, which is especially important when treating Hypothyroidism.

Micronized Mag/Cal in 7:5 ratio has a balancing effect on the thyroid. Magnesium helps regulate blood sugar levels, promotes normal blood pressure, and is known to be involved in energy metabolism and protein synthesis. When Magnesium and Calcium are combined they work in synergy with each other for optimal performance.

Note: Additional information for the above products is included in the subsequent datasheets.
